

TDM 200 Wax/Resin

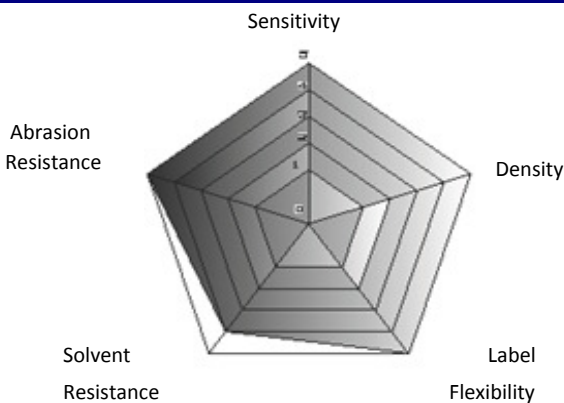

The Todaytec Advantage

Todaytec
Product
Data Sheet

TDM 200's patented ink formulation has excellent durability, eliminates static, prints at low energy settings, high speed printing, has a wide print versatility, and comes with a back coating that allows for printing in excess of 3+ Million Linear Inches. No other wax/resin ribbon provides the benefits and cost competitiveness of TDW 200!

TDM 200 Ribbon Features

TDM 200 Wax/Resin Ribbon Specification

Carrier: PET film
Base Film Thickness: $4.5\mu\text{m}\pm 0.1\mu\text{m}$
Color: Black
Ink Thickness: $2.6\mu\text{m}\pm 0.3\mu\text{m}$
Transmission Density: 2.8
Printing Speed: 10+ IPS
Backcoating: Extend print head life to over 3,000,000 linear inches
Chamber Test: 60°C (140°F) for 30 hours, no blocking observed

Performance Characteristics

- ▶ Prints on a wide variety of paper labels from labels produced around the world
- ▶ Superior print quality on flood coated labels
- ▶ Requires low energy for optimum ink transfer
- ▶ Dark print imaging for enhanced graphics, human readable characters and bar codes
- ▶ Superior back coating technology extends print life to 3+ million linear meters
- ▶ High speed printing capability (10+ ips)

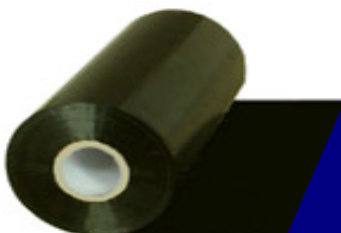

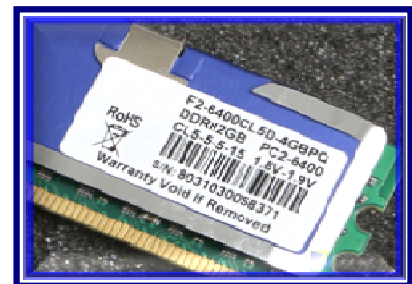

Recommended Applications

Shipping
Inventory
Shelf Labeling
Retail Tags
POS
Product Labeling
Moderate Temperature Resistance Applications
Moderate Solvent Resistance Applications

Recommended Substrates

Coated & Uncoated Paper & Tags
Polyethylene
Polyolefin
Polypropylene
Flood Coated Paper
Kimdura®
Valeron®
BOPP and Polyesters
